Key insights

1. **Sharjah City respiratory is the biggest gap.** Respiratory sales are at 80.5% of target, about 19.5 points short. The decline begins in July 2025. Action: review respiratory rep coverage, stock availability and competitor activity in the territory.
2. **Ajman is behind and Al Ain is at risk.** Ajman is at 88.6% and Al Ain at 91.8%, the two weakest territories overall. Action: run a pipeline and call-frequency review in both, and pair Ajman's reps with top performers.
3. **Fujairah is outperforming.** It is at 112.5% of target, with a step up from January 2025. Action: identify what changed there (coverage, product mix, customer base) and test it in other Northern Emirates territories.

Figures: Jan 2024 - Sep 2026 unless stated.

Rep Performance

Top rep Rohan Mehta (Dubai Marina) generates about 2.7x the revenue of the lowest-ranked rep, Dana Mustafa (Ajman), in 2026 YTD.
Action: use top-rep practices in coaching and review Ajman's territory coverage.

Rep Leaderboard (2026 YTD)

TerritoryName	RepName	Total Revenue	Total Units
